

January 28, 2022

Hello South Suburban Tennis Participants,

We are pleased to inform you that the South Suburban Ice Arena (SSIA) Tennis project is on track to be completed by the end of next month, February 2022. Assuming construction meets its projected deadline, we will be offering programming out of this temporary facility beginning Monday, February 28th.

The District has been working very diligently to find a viable solution for the tennis community after the unfortunate collapse of the Bubble in December, prior to the anticipated construction of Littleton Golf & Tennis. While the former ice arena does not meet USTA sanction standards the District felt providing a condensed 4-court facility provided the best opportunities to temporarily service our community members. In the diagram below, we have displayed the layout of the courts and surrounding space so that we remain transparent with our temporary structure and you may make the best decision possible before participating. With the assistance of our tennis professionals, we have structured our programming to be similar offerings that you have been accustomed to at the Bubble. Additionally, we will only be offering certain levels of youth/adult programming, private lessons and public rentals. It is our goal to provide the best experience possible, with the limitations in place, until we can move back into the newly constructed Littleton tennis facility in the spring of 2023.

Registration for spring programming will be available on **Tuesday, February 1st at 9:00am**, and will be offered on a first come, first served basis through our online catalog at register.ssprd.org.

We appreciate your flexibility and understanding during this transitional time, and we are very excited to offer our tennis community indoor programming once again.

For questions, please reach out to our Tennis Coordinators at ssprtennis@gmail.com.

Thank you!

South Suburban Tennis Staff
