

A Voice for You and a Real Choice

Jeff Monroe

South Suburban Board Candidate

I've been married for 40+ years; I have 4 children and 9 grandchildren. My family and I have benefited from using South Suburban Parks and Recreation facilities and programs since 1975 and would like the opportunity to gratefully give back to the community.

I have 30 years experience in the financial fields of auditing, budgeting, and forensic accounting. During that time, I was responsible for the budgeting, preparation and monitoring of a \$400 million organization.

Throughout my career I have served on several committees including finance councils at local churches, which included applying for grants, conducting and organizing fundraising efforts and designing surveys to determine the needs of the people. My wife and I have been volunteers in marriage ministry for the past 35 years.

South Suburban Parks and Recreation District needs strong leadership in the budgeting and financial areas. Planning is essential to ensure that our district can continue to provide the excellent programs already in place and to add programs as needs arise.

As your representative, more emphasize will be put into increasing affordable programs for all age groups. Within current resources, using proper budgeting and planning, we can maintain and continue to improve our existing facilities, parks, trails and recreational activities for everybody to enjoy. If we use financial constraint we can add new programs, facilities and trails without asking for increases in taxes.
